ABOUT ME

About Me

I'm originally from Reno, Nevada and chose to attend the University of Nevada, Reno because it allowed me to stay close to home while pursuing a high-quality education in business.

Some of my favorite hobbies include video games, traveling, and watching movies. My favorite movie is Step Brothers, which I recently used for a communications project. I enjoy listening to a wide variety of music, but I especially like artists who bring energy and creativity to their work.

I would describe myself as calm, friendly, and adventurous, but also introverted at times. I try to stay optimistic and curious about the world around me. One of my biggest aspirations is to grow into a strong leader in the entertainment or marketing field, where I can use my skills to motivate others, solve problems, and create positive experiences for customers.

Technical Background

I consider myself proficient with computers and technology. I am comfortable with windows

operating systems and

frequently use software such as:

- Microsoft Office (Word, Excel, PowerPoint) for schoolwork and organizational tasks.
- Google Workspace (Docs, Sheets, Slides, Drive) for collaboration and group projects.
- Point-of-Sale & Theater Management Systems at Cinemark for day-to-day operations.
- Basic Editing Tools for creating presentations, flyers, and organizing projects.

Overall, I'm confident with technology and enjoy learning new systems quickly.

Major and Career Goals

I am currently majoring in Management and Marketing at the University of Nevada, Reno. After graduation, I plan to pursue a career with Cinemark, where I have been working since 2022. My goal is to move into a management or marketing role, such as Theater Manager or Marketing Coordinator, within a year of graduating.
